

Our specially developed Snowdrop icemaker – simple and ingenious!

And Made in Germany!

Thanks to our innovative and patented crushing process we manage to produce a delicious NEW SNOW ICE from a simple Snow-Drop within a few seconds.

The idea and ice cream machine for this was developed in Northern Germany, where it is produced.

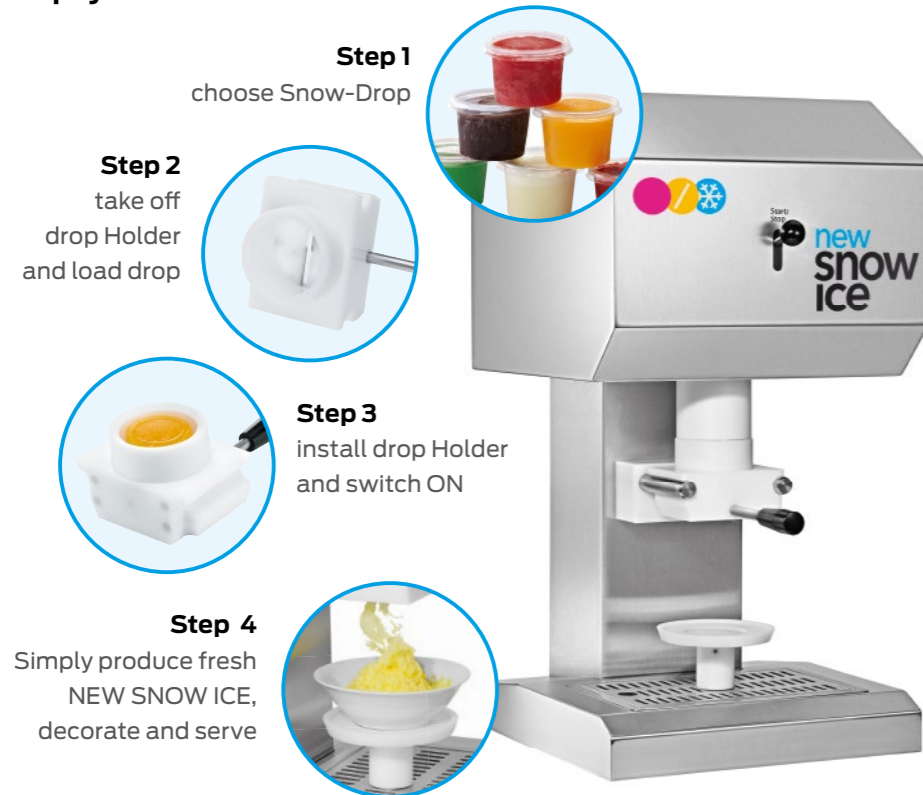

With its small dimensions of 37 x 35 x 69 cm and a weight of not even 30 Kg the machine is very handy and can be placed easily and almost everywhere.

The energy requirement is stated with 130W in operation modus 5W with standby modus only. Thus the machines are also ideal for mobile outlets such as ice cream trucks.

Your benefits:

- Easy to use and clean.
- disassembly and cleaning of all parts with food contact within one minute
- Easy cleaning in the dishwasher
- Lifespan of at least 200,000 cycles
- No maintenance necessary during this number of cycles
- CE and GS tested
- Compact dimensions for variable use
- Ice cream machine & Drops 100% made in Germany

Simply the best Ice Cream:

Our recipe for delicious ice cream consists of passion, experience and best ingredients.

To melt away!

When developing NEW SNOW ICE we used the over 20 years experience our family business made with ice making. And the result can be tasted:

The combined use of the machine and our Snow-Drops magically perform and produce an ice cream of fine texture, incomparable taste and delicate creaminess for your customers.

Because of its light and airy structure the ice starts to melt at an ambient temperature of 25°C after about eight minutes only. And the Snow-Drops can be stored in any commercial freezer at -18°C.

Due to the ease of use of the ice cream machine virtually anybody is able to prepare and serve a NEW SNOW ICE within seconds.

NEW SNOW ICE is an impulse ice and thus perfectly suitable for restaurants, canteens, gas stations, gyms and much more. A pure delight for your customers!

Best arguments for a unique product:

- Less fat
- Reduced Sugar
- Reduced calories
- Without Artificial Flavors
- No artificial colors
- Without preservatives
- Vegan and lactose-free varieties
- Bio and halal possible
- Versatile

Fluffy, light and very tasty at the same time?

No problem!

NEW SNOW ICE is the innovative Ice System Made in Germany! The specially developed crushing process conjures an ice cream that airy light melts on the tongue of your customers folding out an incomparably natural and intense taste at the same time.

Whether pure enjoyment in the cafe, as delicious cooling on the beach, as a to-go option for the strolls, as protein-ice to sports or as a delicious cocktail evening:

 A fresh NEW SNOW ICE fits in many spontaneous occasions.

* The calories refer to 1 serving = 95 g

Source of enjoyment!
Our SNOW-DROPS
Made from best ingredients only! Thanks to our crushing process it produces a volume of about 400 ml per 95ml portion. All our varieties can be manufactured in pure bio-quality, in two-tone types for the cocktail area or halal.
